MSDWT Evaluator Brief
April 17, 2015

Approval of Primary and Secondary Measures in SFS

Many of you will begin requiring Student Achievement and Growth Measures to be completed in SFS. The instructions (which you should have sent to teachers) are also available on the Teacher Evaluation Webpage.

When a teacher completes the process for uploading Primary and Secondary Measures and submits it for your approval, your daily email from SFS will say that there is a **"Goal"** waiting for your approval. Because we customized the heading under what was originally a "Goal" section in SFS, the notification will use the term "Goal." Just know that when that shows up in your inbox, it is likely a Student Achievement and Growth measure waiting for you on the teacher's SFS site.

Indiana Department of Education – Teacher Evaluation Website

The Indiana Department of Education houses online resources for evaluators. There are several documents, research articles, and guidance items. Click the link below if you would like to learn more.
