

Q & A Information for Washington Township Schools Community

Question: What are the highest needs regarding technology and supporting 21st Century learning for WT?

Answer: 21st Century Learning Environment

- 1** Develop a culture and climate that supports the creation, access, and delivery of digital content and blended learning. Provide training and integration support to all those involved in the learning process. Create instructional spaces designed to support a 21st Century learning environment.
- 2** Create a robust network infrastructure capable of meeting the demand for online resources, collaboration, and assessment.
- 3** Provide greater access to devices and leverage personal devices to engage students and allow participation in a 21st Century learning environment.
