Summer Programs 2016

This is our 17th annual Summer Programs brochure, listing the many opportunities for school age children offered by the Metropolitan School District of Washington Township, Indianapolis, Indiana. We hope you find this compiled information helpful in planning your activities for the summer of 2016.

Registration

Summer Enrichment classes are open to all students, whether or not they are Metropolitan School District of Washington Township residents. Other programs (but not all) also welcome students from surrounding communities. Please inquire about the class or program you are interested in.

Grade Levels

Grade levels refer to the grade the student **will enter** for the 2015-2016 school year unless otherwise described.

Dear Washington Township Families,

I invite you to explore this catalogue and to consider the many wonderful opportunities that exist to enrich your student's learning over the summer months. As Superintendent, I am proud that so many of our teachers spend time and energy to provide summer learning opportunities beyond our classrooms, and as a parent I am thrilled that my own children are able to participate. As a member of this community, I feel fortunate to have these many educational opportunities available.

Washington Township Schools are a vital part of this community. In many cases, the quality of life in Washington Township is directly related to the quality of schools. Good schools help protect and increase property values. And it is the offering of programs like the ones found in these pages that remind us why Washington Township Schools are indeed superior.

Over the past several months, the Metropolitan School District of Washington Township has undergone deep reflection, close examination, and thoughtful consideration of what the future holds for community members and students of our schools. Through our recent Strategic Planning process, much was learned and discussed regarding our facilities. Some of our facilities are over 50 years old and many of them have not had renovations for ten years or more. The district is currently in the process of evaluating options, with the end goal of keeping our schools competitive for student enrollment and the retention of teachers and staff. We know that we need to have modern facilities and the funds to defray operational costs to encourage students and parents to remain part of our Washington Township Schools.

Please be watching in the months to come for ways that you can help support Washington Township Schools. We know that providing superior learning experiences not only benefits the learner, but it also benefits the entire community. Thank you for being our supportive community in helping us to achieve both of these goals.

As residents of Washington Township, please also take advantage of the wonderful opportunities that you will find for your students within this summer catalogue, and know that this is one of the many ways that our schools strengthen our community.

Thank you for your continued support of our amazing schools in Washington Township. We could not have superior schools without the supportive community that you are.
Sincerely,

Dr. Nikki Woodson
Superintendent, MSD Washington Township

Learning Under the Sun 2016

For students entering grades 4-8

"Science Sleuths Using Technology"
Learning Under the Sun (LUS) is a summer science-enrichment program for students entering grades 4 – 8. The theme for the 2016 LUS program is "Science Sleuths Using Technology".

This year our focus is using technology. We will be working with a SKYPE Master and communicating with schools and a scientist in South America. Students will be coding and will have the opportunity to work with a 3-D printer. Students will participate in other high tech experiments.

We will be visiting the Indianapolis Children's Museum for three half-days working on different stations. Our overnight will be on June 16th where we will celebrate Indiana's 200th Birthday as we visit Corydon, Indiana, the first state capitol and O'Bannon Woods. Caves, hiking, working with a naturalist and a cool waterpark are all part of the overnight experience, plus a surprise!

Transportation to all field experiences will be provided by LUS. Parent(s)/guardian(s) must provide daily transportation to the base location at Nora Elementary School, 1000 East 91st Street. All materials, equipment, and supplies are provided, as well as breakfast and lunch.

Dates: June 6– June 17

Time: 7:45 a.m.-3:00 p.m.

Location: Nora Elementary School,
1000 East 91st Street

Cost: $240 ($50 non-refundable deposit due with application)

Instructor: Mike Pomerenke,
Principal Allisonville Elementary School
317-446-3475

To apply:

1. Parent(s)/guardian(s) must complete the student application for LUS.
2. Mail completed application (one per child) and $50 check made payable to:
   "Learning Under the Sun" to:
   Mike Pomerenke Learning Under the Sun
   Allisonville Elementary School
   4900 East 79th Street

Animation

For ages 9 and up

Animation is the rapid display of a sequence of images of 2-D or 3-D artwork or model positions in order to create an illusion of movement.
This beginner-to-intermediate, 5-day course introduces students to the art of animation by using various techniques and materials. By applying either digital or stop-motion methods, the student will learn how to develop, create and produce his/her own movie. The goal of this course is to promote observation, creativity, organization and teamwork.

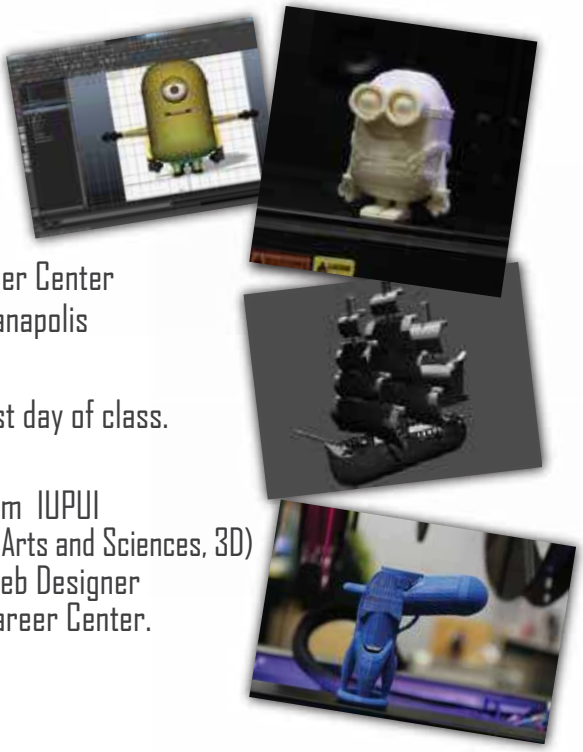
Intro to 3D Modeling

For ages 12 and up

3D is everywhere these days, most commonly in feature films and television. However, new applications and technology are allowing 3D to also be "printed", opening up possibilities of creative expression, manufacturing and even science and medicine.

This course will introduce the concept of creating 3D objects using computer applications. Students will receive instruction on the navigation of 3D space in a computer application, how to use basic toolsets, how to sculpt and manipulate the virtual meshes, and ultimately complete their own model that will be printed on a 3D printer.



Dates: **Session 1**

Music Recording & Mixing Workshop

Grades 6 - 12

Learn the basics of recording and mixing music in the audio studios of J. Everett Light Career Center, home of WJEL Radio.
If you play guitar, drums, piano or any instrument, love to sing or rap and desire to create your own music, this workshop will be perfect for you.
Middle School students will learn recording and mixing techniques, along with MIDI recording and editing to make their own songs. High School students will have the same choices or they may bring in the whole band for recording sessions in the studios. You'll have access to 8 project studios, 2 recording studios and all the gear you need to create your songs. 1-Mac computers in each studio feature Pro Tools, GarageBand, and Reason digital audio software. CD authoring software and equipment will allow you to leave with your finished product on a professionally labeled CD.
Sessions open to students going into grades 6-8 and 9-12. Musical experience is helpful, but not necessary.

The Summer Challenge Art Program

Grades 9-12

Art classes, taught by experienced North Central art teachers, will offer high school students with a serious interest in art, a chance to work in a conceptual approach.

The program will focus on drawing, painting, design, and computer generated art. Art assignments will be developed to help the student work in techniques and fundamentals as well as allow the student to use their creative license in making art.

The Summer Challenge Art Program is open to students entering 9th - 12th grade. Graduating seniors with a serious interest in art, can apply.

The Summer Challenge Art Program is not a summer school class. Students will not receive credit for attending the program.

The Summer Challenge Art Program students will meet in the art department at North Central High School, from 9:00 a.m. to 3:00 p.m., with an hour for lunch, daily. Students receive approximately 20 hours of instruction. The cost of the program is $120.00. This includes the cost of materials and supplies. The class will be limited to 20 students. Students are responsible for providing their own lunch. Students are not permitted to leave campus for lunch unless prior permission has been given by parent or guardian.

Dates: July 5– July 8

Time: 9:00 a.m.-3:00 p.m.

Location: North Central High School

Cost: $120.00 for the week!

Instructor: Basil Smotherman Art Department Chairman North Central High School

J.Everett Light Career Center
Child Care Preschool
For ages 3-5

Our preschool summer day camp is an eight-week program created and designed for hands-on learning and fun. Led by experienced preschool teachers, our summer adventures pack fun into learning as children explore the environment. The camp offers indoor and outdoor activities, plus opportunities for fun, friendships, and exploration. Our program will include mixed age groupings of 3-5 year olds to teach children social skills, encourage their growing ability to make choices, work with others, and assume responsibilities. Our teachers work as a team to develop a fun curriculum that takes advantage of all that the summer offers. They use playgrounds, helping children to discover science, explore nature, and engage in the creative arts, while learning about the vast opportunities in the world around them.

QuEST

For ages 16+

Qu.E.S.T - Quality Education Supported by Technology

Located on the North Central High School Campus (Indianapolis, IN), Qu.E.S.T is a high school credit program offered to any Indiana student ages 16+. It predominately serves students from over ten area school districts located in northern Marion county and all of Hamilton and Boone counties. Courses are fully accredited and aligned with Indiana State Standards. Students may choose from a number of core courses, which they may use for credit recovery or as a chance to get ahead in school – freeing up their schedule to take a favorite elective. The program consists of computer based instruction (a program called GradPoint), supplemental homework assignments, and a few lectures depending on the course. Qu.E.S.T attracts a wide range of learning styles and abilities because it maintains an ideal environment for its students. All courses are taught by Indiana licensed instructors who not only specialize in their subjects but also have experience in special education and technology. Contact Colten Grostefon coltenmarshal@gmail.com for questions.
