MAP tests produce scores that make it possible to monitor student growth from year to year along developmental curriculum scales or continua. The chart inside shows examples of the kinds of work students can do at various points along the MAP RIT scale, assuming they have been exposed to content. This type of information is helpful in supporting appropriate instruction.

Please note that each subject area has a unique alignment to the RIT scale. As a result, scores between subjects are not equivalent.

**How to use the charts:**

1. Find the column containing the student’s score for a particular subject. For example, if the student’s score in “Word Meaning and Vocabulary Knowledge” is 188, refer to the column labeled 181-190.

2. Read the column(s) from left to right to locate a sample test question for a given reporting area, such as “Word Meaning and Vocabulary Knowledge.” A student’s score suggests that, currently, he or she is likely to get about half of the questions of this difficulty correct.

3. Now look at the questions in the column(s) to the left, and higher on the page. The student is likely to get most of these correct, assuming he or she has been instructed in these skills and concepts.

4. The questions further down the page will probably require new learning on the student’s part.

**Please note:**

Test items in this booklet are sample items, and many are not calibrated or field-tested. For purposes of this document, RIT scale alignment is an approximation.

Some passages have been truncated due to space considerations.
Word Meaning and Vocabulary Knowledge

Students can decode words and recognize and understand word relationships and structures. They can use context cues to decipher word meaning.

Read the words.
- ball
- doll
- puzzle
- top

To which group do these words belong?
1. animals
2. colors
3. places
✓ 4. toys

Read the sentences.
Jackie couldn’t believe how much fun she had on the field trip. She kept replaying the day’s events in her mind on the bus ride back to school.

In the word “replaying,” what does the prefix re- mean?
1. not
2. two
✓ 3. again
4. after

Which set of words all have the same root word?
1. extra, relax, index
2. contain, restrain, plain
3. here, everywhere, there
✓ 4. knowledge, unknown, knowing

Read the sentence.
Although the storm outside was ferocious, Nate left the comfort of the cabin and trudged toward home.

Which word best matches the connotative meaning of “ferocious” as it is used in the sentence?
1. barbaric
2. inhuman
✓ 3. intense
4. untamed

Read the sentence and dictionary entry.
The lives saved when the volcano exploded vindicated the expensive early warning system.

vindicate (vin-di-keyt) v.
1. to clear from an accusation
2. to justify by evidence or argument
3. to defend against opposition
4. to claim for oneself or another

Which definition of vindicate is used in the sentence above?
1. definition 1
2. definition 2
✓ 3. definition 3
4. definition 4

Based on your knowledge of Latin roots, what is the meaning of “ambidextrous”?
1. lives on land and in water
2. walks quickly
3. before the flood
✓ 4. can use both hands equally
### Literature: Understand and Integrate Key Ideas and Details

Students can read and comprehend literature, make inferences and predictions, and draw conclusions. They can determine key ideas, analyze the development of themes and ideas, and summarize.

#### Read the story.

**Mother was ready. She had streamers and balloons. She baked a cake. She invited Sandy’s friends. She asked them not to tell Sandy. Sandy will come home from school. Her friends will shout when she turns on the lights!**

**What is Sandy’s mother planning?**

- 1. Sandy’s first day at school
- 2. a picnic in the backyard
- 3. **✓** Sandy’s surprise party
- 4. a trip to the bakery

#### Read the passage.

**I can’t wait for winter vacation to start! Every day feels like a holiday! I love to have snowball fights with my friends and make snowmen in the yard.** (passage continues)

**Which word best describes how the author feels about winter vacation?**

- 1. calm
- 2. **✓** excited
- 3. nervous
- 4. tired

#### Read the story.

**Mother was ready. She had streamers and balloons. She baked a cake. She invited Sandy’s friends. She asked them not to tell Sandy. Sandy will come home from school. Her friends will shout when she turns on the lights!**

**What is Sandy’s mother planning?**

- 1. Sandy’s first day at school
- 2. a picnic in the backyard
- 3. **✓** Sandy’s surprise party
- 4. a trip to the bakery

#### Read the passage.

**The wind whipped the tops of the trees so they looked like they were dancing. Clouds raced across the sky. Leaves and bits of paper swirled around.** (passage continues)

**Which sentence best tells what the story is about?**

- 1. They are having fun in the snow.
- 2. They are cleaning up after a big storm.
- 3. There is a double rainbow in the sky.
- 4. **✓** A big rainstorm is about to start.

#### Read the story.

**Molly stared out the bus window with blank eyes. Next to her, a woman pulled herself up. She got off at the next stop. Molly looked over and saw that she had left something on the seat.** (passage continues)

**What was Molly’s first reaction when she picked up the wallet?**

- 1. to turn it in to the bus driver
- 2. **✓** to look at the pictures
- 3. to call after the woman
- 4. to take the money

#### Read the story.

**The lights went out, and people at the costume ball stopped dancing. They spoke in whispers. Then a guest dressed as a lion tamer cried aloud, “Watch out!” Polly screamed.** (passage continues)

**Who is most likely the thief in this story?**

- 1. the lion tamer
- 2. Polly
- 3. Detective Cutler
- 4. **✓** the pirate

#### Read the paragraph.

**He lived on the bank of a mighty river, broad and deep, which was always silently rolling on to a vast undiscovered ocean. It had rolled on, ever since the world began. It had changed its course sometimes, and turned into new channels, leaving its old ways dry and barren.** (passage continues)

(from “Nobody’s Story” by Charles Dickens)

**What is the main point in this passage?**

- 1. The river supported life on its banks.
- 2. It is hard to swim against the tide.
- 3. **✓** The flow of the river to the ocean is unchanging.
- 4. Earth will continue to circle around the sun.

#### Read the story.

**Bernadou clung to his home with a dogged devotion. He would not go from it to fight unless compelled, but for it he would have fought like a lion.** (passage continues)

(from “A Leaf in the Storm” by Louise De La Ramee)

**Based on the passage, which statement about Bernadou is most likely true?**

- 1. Bernadou had traveled to the capital of his country many times.
- 2. Bernadou was a drifter, never spending much time in any one place.
- 3. **✓** Bernadou would fight with loyalty and fierceness for any good cause.
- 4. Bernadou felt a strong connection to his hometown, but not his country.

#### Read the passage.

**Elizabeth Bennet had been obliged, by the scarcity of gentlemen, to sit down for two dances; and during part of that time, Mr. Darcy had been standing near.** (passage continues)

(from Pride and Prejudice by Jane Austen)

**How is Elizabeth Bennet influenced by the dialogue between Mr. Darcy and Mr. Bingley?**

- 1. Because Elizabeth overhears Mr. Darcy’s insulting comments, she insists on sitting alone rather than dance with him.
- 2. Elizabeth discovers that Mr. Darcy’s refusal to dance is due to his shy nature and forgives his behavior.
- 3. **✓** Despite believing that Mr. Darcy is impolite and self-important, Elizabeth maintains an upbeat attitude.
- 4. Elizabeth develops a new, playful sense of humor about Mr. Darcy to draw him out of his foul mood.
Reading the sentences.

Scott opened his eyes and looked at the clock. He pulled the blankets over his head to keep the sun out. He yawned and closed his eyes. He just wanted to go back to sleep.

What does the author want you to think about Scott?

1. He is lazy.
2. He is tired.
3. He is hungry.
4. He is scared.

✓ 2. He is tired.

Read the story.

Maria ate a big bowl of cereal. After breakfast, Maria put her book in her backpack. (passage continues)

What did Maria do first?

1. eat her breakfast
2. put her book in her backpack
3. put on her coat
4. walk to the bus stop

✓ 1. eat her breakfast

Read the poem.

The Movie
The movie theater is cool and dark.
I can’t wait for the movie to start. (poem continues)

Which word tells how the theater sounds?

1. cool
2. dark
3. soft
4. loud

✓ 4. loud

Read the passage.

The clouds lifted, and the pilot sighted the tower of the Jefferson City airport. He had already radioed ahead that he was arriving. (passage continues)

What is the best title for this passage?

1. Jefferson City Airport
2. One Cloudy Night
3. A Safe Landing
4. A Pilot’s Life

✓ 3. A Safe Landing

Read the poem.

It sifts from leaden sieves,
It powders all the wood,
It fills with alabaster wool
The wrinkles of the road. (poem continues)

("The Snow" by Emily Dickinson)

How does the use of alliteration in line 13 build meaning in the poem?

1. It highlights the eeriness of the snow’s frosty appearance.
2. It emphasizes the images of destruction caused by the snow.
3. It accentuates the completeness of the snow’s coverage, layer by layer.
4. It contrasts the quietness of the fallen snow with the sounds of harvest.

✓ 3. It accentuates the completeness of the snow’s coverage, layer by layer.

Read the passage.

Many years ago, a young man named Takoda decided to go on foot to Dark Mountain, a three-day journey from his village. Two days into his journey, he paused for nourishment in a narrow valley. (passage continues)

How does the setting contribute to Takoda’s main problem in the story?

1. He is unable to see clearly through dust from the valley floor.
2. He is unable to find shelter on the valley floor from threatening weather.
3. The valley does not provide him with the nourishment he needs for his journey.
4. The valley does not provide him with an easy way to avoid the buffalo stampede.

✓ 4. The valley does not provide him with an easy way to avoid the buffalo stampede.

Reading the sentences.

Laura’s teacher asked to see her science project. “But Mrs. Thompson, I forgot it was due today!” Laura said. Then she asked if she could call her mom. “Mom, can you bring my science project to school? It’s due today!” She listened to her mother for a moment. (passage continues)

How do readers learn about Laura?

1. from what other characters say
2. from what she says to others
3. from what she looks like
4. from descriptions of her feelings

✓ 2. from what she says to others

Read the passage.

Dave and Mike had a great time sledding. They pulled their sleds up the big hill and went down face-first. (passage continues)

What did Mike and Dave do right after playing outside?

1. They pulled their sleds up the big hill.
2. They raced down the hill.
3. They had grilled cheese and soup.
4. They fell asleep on the couch.

✓ 3. They had grilled cheese and soup.

Read the poem.

Hope is the thing with feathers
That perches in the soul,
And sings the tune without the words,
And never stops at all. (poem continues)

("Hope" by Emily Dickinson)

Which statement best expresses the meaning of the extended metaphor that compares hope to a bird throughout the poem?

1. Hope is a constant presence and gives people comfort.
2. Hope flies away like a bird during storms and difficult times.
3. Hope is demanding, like a bird that constantly needs to be cared for.
4. Hope tries to sing songs that are uplifting, but forgets the words to them.

✓ 1. Hope is a constant presence and gives people comfort.

Literature: Understand and Interpret Craft and Structure

Students can analyze the structure of literary texts and evaluate the author’s craft and purpose. They can interpret figurative language and analyze literary devices.
### Informational Texts: Understand and Integrate Key Ideas and Details

Students can read and comprehend literary texts, making inferences and predictions, drawing conclusions, and citing textual support. They can determine central ideas, analyze the development of arguments, and summarize.

**Read the passage.**

Many kinds of dogs live in the world. Some have been around for a long time.  

**What do Mudis like?**

- other dogs
- having work to do
- living in the city
- sleeping all day

**Passage 1**

Cotton is a type of plant. The cotton plant grows from seeds. Then the plants grow flowers. After the flowers fall off, green pods, or bolls, are left. The bolls dry out in the sun. They burst open. White fluffy cotton pops out.

**Passage 2**

Cotton is a soft cloth that comes from a plant. White bolls of cotton are washed and stretched into long strings. The strings are twisted together to make a thread.

**What is the main idea of both paragraphs?**

1. plants
2. clothes
3. cotton
4. flowers

**Read the directions.**

Making mud pies is fun. Find some nice sticky mud. Shape it into little pies. Set the pies in the warm sun to dry.

**What type of weather is needed to make mud pies?**

- a sunny day
- a rainy day
- a snowy day
- a cloudy day

**Passage 1 (continued)**

After the fluffy cotton is picked, it is cleaned. The cotton is placed in bales. The bales are sent to factories. The cotton is cleaned and ground into small pieces. The small pieces are made into strong thread and then woven into cloth.

**Passage 2 (continued)**

Some people use cast-iron wood-burning stoves to heat their homes. These stoves can be used as a source of heat in remote places. Wood-burning stoves are also used in traditional villages around the world.

**What is the main idea of both passages?**

1. plants
2. clothes
3. cotton
4. flowers

**Read the paragraph.**

Platinum is a silver-white metal that is even more valuable than gold. It will not corrode or tarnish as many metals do when exposed to air. It can be used as a catalyst in processes that change harmful pollutants into nonpollutants.

_A catalyst is a substance that can speed up or bring about a chemical reaction without being affected itself._

According to the passage, why is platinum valued by jewelers?

1. It can be used as a catalyst
2. It is good for gem settings
3. It is rarer than gold
4. It is produced in many countries

**Read the paragraph.**

When do chicks start peeping?

- after one week
- after two weeks
- after three weeks
- after four weeks

**Passage 1 (continued)**

A hen lays about one egg a day. A chick takes three weeks to be born from an egg.

**Passage 2 (continued)**

Plants grow flowers. After the flowers fall off, green pods, or bolls, are left. The bolls dry out in the sun. They burst open. White fluffy cotton pops out.

**Passage 3**

Many kinds of dogs live in the world. Some have been around for a long time.  

**Which aspect of the passage best supports the idea that Franklin was a creative visionary?**

1. the danger associated with Franklin's famous kite-flying experiment
2. the example of the wide range of inventions that Franklin developed
3. the mention of Franklin's role in writing the Declaration of Independence
4. the similarities between today's bifocals and the bifocals that Franklin invented

**Which statement best describes the main idea of this passage?**

1. The past generations have secured freedom for the future
2. The responsibilities of freedom rest with the individual
3. Global alliances are the key to freedom for all people
4. Well-equipped armies will fight to defend freedom

**Read the paragraph.**

The efficiency of a book is like that of a man, in one important respect: its attitude toward its subject is the first source of its power. A book may be full of good ideas well expressed, but if its writer views his subject from the wrong angle even his excellent advice may prove to be ineffective.

Which conclusion about becoming an effective speaker can be drawn from the passage?

1. Effective speaking is the result of study followed by earnest practice
2. Effective speaking requires training in and adherence to a specific set of rules
3. Effective speaking requires self-discipline and personal conviction about the topic
4. Effective speaking is the result of practicing the speeches and styles of noted speakers

**Read the paragraph.**

We observe today not a victory of party but a celebration of freedom—symbolizing an end as well as a beginning—signifying renewal as well as change. For I have sworn before you and Almighty God the same solemn oath our forbears prescribed nearly a century and three-quarters ago.

Which conclusion about becoming an effective speaker can be drawn from the passage?

1. Effective speaking is the result of study followed by earnest practice
2. Effective speaking requires training in and adherence to a specific set of rules
3. Effective speaking requires self-discipline and personal conviction about the topic
4. Effective speaking is the result of practicing the speeches and styles of noted speakers
Informational Texts: Understand and Interpret Craft and Structure

Students can analyze the structure of texts and evaluate a text for bias and for the quality of claims and evidence. Students can evaluate the author's craft, determining author's point of view and purpose.

Read the chart.

3. jazz and pop
4. pop and rock

Read the passage.

The best place to go on vacation is Florida. There are beautiful beaches, luxury hotels, good restaurants, and interesting shops. (passage continues)

What is the author's opinion of Florida?

1. The weather is too hot.
2. Florida has no variety.
3. Only boaters will enjoy Florida.
✓ 4. Florida is a great place to visit.

Read the paragraphs.

Review 1
Happy Birthday, Maudie is a delightful movie. The characters are believable, and the plot is a tender love story. (passage continues)

Review 2
Don't bother to see Happy Birthday, Maudie. It's a sappy movie about a dumb girl who lets everyone push her around. (passage continues)

Based on the descriptions in the two reviews, on which topic are the two reviewers most likely to agree?

1. the main character's personality
2. the quality of the plot
✓ 3. the details of the setting
4. the overall quality of the movie

Read the passage.

A Unique Creature: The Thorny Devil

The thorny devil is a very interesting and unusual creature. From its name, one might guess that it is large and scary. (passage continues)

Which explanation is the most likely reason the author includes a chapter heading in this passage?

1. to present information about key vocabulary terms
2. to supply reasons why this is an interesting subject
3. to explain background information about the subject
✓ 4. to provide an idea of what the selection will be about

Read the report excerpt.

Changes in climate have also been manifested in altered precipitation patterns. Over the last century, the amount of precipitation has increased significantly across eastern parts of North America. (passage continues)

Which feature of this text most assures the validity of the information?

✓ 1. the use of citations
2. the vocabulary
3. the use of percents
4. the author’s tone

Read the passage written by a company that organizes scientific research into a database.

Our Mission: Our database of more than 3,000 articles of documented investigations is an easy-to-use tool for scientific research. Users may look for a general topic or narrow their search through the use of three topic code parameters. (passage continues)

How does the chart complement the text?

1. It summarizes the text.
✓ 2. It provides detail not in the text.
3. It serves to contrast information in the text.
4. It provides transition between the two parts of the text.
MAP tests produce scores that make it possible to monitor student growth from year to year along developmental curriculum scales or continua. The chart inside shows examples of the kinds of work students can do at various points along the MAP RIT scale, assuming they have been exposed to content. This type of information is helpful in supporting appropriate instruction.

Please note that each subject area has a unique alignment to the RIT scale. As a result, scores between subjects are not equivalent.

How to use the charts:

1. Find the column containing the student’s score for a particular subject. For example, if the student’s score is 188 in “Language: Understand, Edit Mechanics,” refer to the column labeled 181-190.

2. Read the column(s) from left to right to locate a sample test question for a given reporting area, such as “Language: Understand, Edit Mechanics.” A student’s score suggests that, currently, he or she is likely to get about half of the questions of this difficulty correct.

3. Now look at the questions in the column(s) to the left, and higher on the page. The student is likely to get most of these correct, assuming he or she has been instructed in these skills and concepts.

4. The questions further down the page will probably require new learning on the student’s part.

Please note:

Test items in this booklet are sample items, and many are not calibrated or field-tested. For purposes of this document, RIT scale alignment is an approximation.

Some passages have been truncated due to space considerations.
Writing: Plan, Organize, Develop, Revise, Research

Students use skills to plan, develop, and revise writing and research.

Which group of words would be best to use to tell about the Moon?

1. soft, small, blue
2. close, green, cold
✓ 3. white, round, full
4. wet, black, square

Which word would best complete the graphic organizer?
1. bitter
✓ 2. sweet
3. loud
4. salty

Which sentence should be added to the blank to explain more about taking care of a pet fish?
1. Sharks are very large fish.
2. Some fish live deep in the ocean.
3. Goldfish are my favorite kind of fish.
✓ 4. You should change the water once a week.

Which source of information will be most useful to Derrick?
1. a chart that shows the orbits of all the planets
2. a science fiction movie about life on one of Jupiter’s moons
✓ 3. a book that names and describes the moons of each planet
4. a magazine article that explains the origins of the universe

Which revision of the underlined sentences best provides appropriate transition?
1. In addition to that, I knew I needed to stay on the front for, about a minute, but my legs drained immediately, and I began gasping in the humid air.
2. In either case, I knew I needed to stay on the front for, about a minute, and my legs drained immediately, and I began gasping in the humid air.
3. Eventually, I knew I needed to stay on the front for, about a minute, and my legs drained immediately, and I began gasping in the humid air.
✓ 4. Although I knew I needed to stay on the front for, about a minute, my legs drained immediately, and I began gasping in the humid air.

What is the best thesis for a persuasive essay on World War II?
1. World War I began in 1914 when Archduke Ferdinand was shot.
2. The United States tried to stay neutral when World War I began.
3. World War I took place across Europe and Africa, lasting four long years.
✓ 4. World War I was inevitable due to many complicating factors.

Study the graphic organizer.

How ice cream tastes

Which word would best complete the graphic organizer?
1. bitter
✓ 2. sweet
3. loud
4. salty

Taking care of a pet fish is easy. Fish need a special bowl full of clean water. They need a filter to help keep the water clean. Fish need to be fed a little bit each day.

Read Sarah’s draft.

Read the paragraph.

I always look forward to winter for one reason: hot chocolate. Hot chocolate is my favorite. It warms me up when I am really cold.

Which sentence could be added to describe what hot chocolate tastes like?
1. It is sweet and warm and so chocolaty!
2. Hot chocolate comes in different flavors.
3. I have hot chocolate every day in winter.
4. Hot chocolate is drunk by people of all ages.

Celine is writing a story about a trip to the train station. Her teacher said to use words that describe the sounds at the train station.

Which sentence should Celine add to her story?
1. An engine thundered down the track and clattered to a stop.
2. Two children waited on a bench and played with their toys.
3. A man rushed through the station carrying a big suitcase.
4. The conductor lifted a suitcase up the steps of the train.

Your class just finished studying rivers. Your teacher has assigned you to write a research paper that further explores rivers.

Which of the following would be the best research question?
1. What is your favorite river?
2. How are the Nile and Amazon rivers different?
3. Where is the world’s longest river?
4. How many times has the Nile River flooded?

Read the beginning of Nora’s speech.

One sunny day a few years ago, I was out riding my road bike with my Aunt Natalia, a tri-athlete, and some of her training partners. We were riding in a single line at a fast pace on a country road with a nice wide shoulder. (speech continues)

Which revision of the underlined sentences best provides appropriate transition?
1. In addition to that, I knew I needed to stay on the front for, about a minute, but my legs drained immediately, and I began gasping in the humid air.
2. In either case, I knew I needed to stay on the front for, about a minute, and my legs drained immediately, and I began gasping in the humid air.
3. Eventually, I knew I needed to stay on the front for, about a minute, and my legs drained immediately, and I began gasping in the humid air.
✓ 4. Although I knew I needed to stay on the front for, about a minute, my legs drained immediately, and I began gasping in the humid air.
Choose the missing word.

The dog ______ in the house.
1. am
✓ 2. is
3. are
4. were

Can you watch the movie with ______?
1. we
✓ 2. us
3. he
4. I

The ice cream truck comes to our apartments every Friday. My mom says buying ice cream from the ice cream truck was one of her favorite parts of childhood. We run outside when we hear the truck playing its song. Mom buys an ice cream sandwich, and we split it in half. Then we sit in the sunshine to eat our ice cream sandwich. It fills us both with happiness to share an ice cream.

The ice cream truck comes to our apartments every Friday. My mom says buying ice cream from the ice cream truck was one of her favorite parts of childhood. We run outside when we hear the truck playing its song. Mom buys an ice cream sandwich, and we split it in half. Then we sit in the sunshine to eat our ice cream sandwich. Choose the missing word.

Can you watch the movie with ______?
1. we
✓ 2. us
3. he
4. I

The dog ______ in the house.
1. am
2. is
3. are
4. were

Read the sentence.

My mom wakes me up ______ on weekdays than on the weekend.

Which word correctly completes the sentence?
1. early
✓ 2. earlier
3. more early
4. most early

Which preposition best completes the sentence?
1. in
2. from
✓ 3. about
4. with

The student wrote a report ______ James Madison, the fourth president.

Click on the word in the parentheses that correctly completes each sentence.

I have a sister (who, which) is training to be an airline pilot.

I do not like riding roller coasters (which, that) flip upside down.

My brother is the only person on the team (who, which) scored a goal.

My family took me to the ocean, (which, that) is where I learned to swim.

Click on the word in each box that correctly completes each sentence.

The ice cream truck comes to our apartments every Friday. My mom says buying ice cream from the ice cream truck was one of her favorite parts of childhood. We run outside when we hear the truck playing its song. Mom buys an ice cream sandwich, and we split it in half. Then we sit in the sunshine to eat our ice cream sandwich. It fills us both with happiness to share an ice cream.

Read the draft of Talia's paragraph.

The tallest mountain in the world is Mount Everest. Its elevation is 29,029 feet. It was summited in 1953 for the first time.

Talia wants to combine these statements into one sentence.

Which sentence shows clear pronoun-antecedent agreement?
1. We unpacked our books from the boxes and then returned them to the office.
2. As soon as the monkeys left their cages, the janitors cleaned them.
✓ 3. If anybody wants to play professional basketball, you have to practice the fundamentals.
4. For English class, the students had to memorize a monologue by their favorite playwright.
## LANGUAGE USAGE | LANGUAGE: UNDERSTAND, EDIT MECHANICS

### Students understand the conventions of punctuation, capitalization, and spelling.

<table>
<thead>
<tr>
<th>Sentence</th>
<th>Punctuation Correct?</th>

<td></td>
<td>Needs a period.</td>
</tr>
</tbody>
</table>

**Language: Understand, Edit Mechanics**

Students understand the conventions of punctuation, capitalization, and spelling.

1. **Which sentence is punctuated correctly?**
   - 1. Do flowers bloom in the spring!
   - 2. Do flowers bloom in the spring?
   - 3. Do flowers bloom in the spring,
   - 4. Do flowers bloom in the spring.
   - **Correct Answer:** 2. Do flowers bloom in the spring?

2. **Click on the word in the sentence that should begin with a capital letter.**
   - My art teacher gave the note to Mrs. Begay.
   - **Correct Answer:** Mrs.

3. **What is the correct spelling for more than one cherry?**
   - 1. cherrys
   - 2. cherries
   - 3. cherryes
   - 4. cherryses
   - **Correct Answer:** cherries

4. **Which sentence correctly uses quotation marks?**
   - 1. Mom said, "Brush your teeth before bed."
   - 3. "My sister said, I need a bedtime story."
   - 4. "Mom," I asked, can I have a glass of water?"
   - **Correct Answer:** 1. Mom said, "Brush your teeth before bed."

5. **Which sentence has the underlined word spelled correctly?**
   - 1. Sarah wore a costume for the school play.
   - 2. The movie will continue playing during recess.
   - 3. The manner of his speaking was formal.
   - 4. I described the first time I went to the ocean.
   - **Correct Answer:** 1. costume

6. **Which sentence is punctuated correctly?**
   - 1. Pilar watch out for the bees in the garden.
   - 2. It seems to us, Mr. Jones that the trip should be canceled.
   - 3. What are you going to do after practice tonight Tom?
   - 4. If you ask me, Lorraine, this phone book is outdated.
   - **Correct Answer:** 1. Pilar watch out for the bees in the garden.

7. **Read the sentence.**
   - I plan to spend groundhog Day looking for holes in the park with my friend Doug.
   - **Which word in the sentence should begin with a capital letter?**
   - 1. plan
   - 2. groundhog
   - 3. park
   - 4. friend
   - **Correct Answer:** groundhog

8. **What is the correct spelling for more than one cherry?**
   - 1. cherrys
   - 2. cherries
   - 3. cherryes
   - 4. cherryses
   - **Correct Answer:** cherries

9. **Which sentence correctly uses quotation marks?**
   - 1. Mom said, "Brush your teeth before bed."
   - 3. "My sister said, I need a bedtime story."
   - 4. "Mom," I asked, can I have a glass of water?"
   - **Correct Answer:** 1. Mom said, "Brush your teeth before bed."

10. **Which sentence has the underlined word spelled correctly?**
    - 1. Sarah wore a costum for the school play.
    - 2. The movie will continue playing during recess.
    - 3. The mannar of his speaking was formal.
    - 4. I discribed the first time I went to the ocean.
    - **Correct Answer:** 1. costume

11. **Which sentence is punctuated correctly?**
    - 1. Pilar watch out for the bees in the garden.
    - 2. It seems to us, Mr. Jones that the trip should be canceled.
    - 3. What are you going to do after practice tonight Tom?
    - 4. If you ask me, Lorraine, this phone book is outdated.
    - **Correct Answer:** 1. Pilar watch out for the bees in the garden.

12. **Proofread Carla’s paragraph.**
    - I live in an area known as the great southwest—in Taos, New Mexico. Taos is a town well known for its art, history, and recreation. Located just north of the Santa Fe National Forest, Taos offers visitors the chance to ski during the winter months. There are also several museums whose goal it is to preserve artwork from the northern part of New Mexico. There are even more options for exploration nearby; Taos is only 40 miles northeast of Santa Fe, the capital of New Mexico.
    - **Which underlined word should be capitalized?**
    - 1. southwest
    - 2. north
    - 3. northern
    - 4. northeast
    - **Correct Answer:** southwest
RIT
Reference Chart for Mathematics 2 – 5

MAP tests produce scores that make it possible to monitor student growth from year to year along developmental curriculum scales or continua. The chart inside shows examples of the kinds of work students can do at various points along the MAP RIT scale, assuming they have been exposed to content. This type of information is helpful in supporting appropriate instruction.

Please note that each subject area has a unique alignment to the RIT scale. As a result, scores between subjects are not equivalent.

How to use the charts:

1. Find the column containing the student’s score for a particular subject. For example, if the student’s score in “Geometry” is 188, refer to the column labeled 181-190.
2. Read the column(s) from left to right to locate a sample test question for a given reporting area, such as “Geometry.” A student’s score suggests that, currently, he or she is likely to get about half of the questions of this difficulty correct.
3. Now look at the questions in the column(s) to the left, and higher on the page. The student is likely to get most of these correct, assuming he or she has been instructed in these skills and concepts.
4. The questions further down the page will probably require new learning on the student’s part.

Please note:

Test items in this booklet are sample items, and many are not calibrated or field-tested. For purposes of this document, RIT scale alignment is an approximation.
Operations and Algebraic Thinking

Students can represent and solve problems involving the four operations, understand and apply properties of operations, generate and analyze patterns, and write and interpret numerical expressions.

161-170

6 + 2 =
A. 4
✓B. 8
C. 9
D. 26
E. 62

☐ + ? = 13
A. 6
B. 9
C. 10
D. 11
E. 18

= ?

171-180

Click on all the sets that have an odd number of basketballs.

A
B
C
D
E

181-190

Which set contains all the factors of 20?

A. (5, 10, 15, 20)
B. (2, 4, 5, 10)
✓C. (1, 2, 4, 5, 10, 20)
D. (1, 2, 4, 5, 8, 10, 15, 20)

191-200

There are 8 hot dog buns in a package. Shay wants to buy the LEAST number of packages to have enough buns for 50 hot dogs.

Which statement is true?

A. Shay should buy 6 packages. She will have exactly the correct number of buns.
B. Shay should buy 6 packages. She will have 2 buns left over.
C. Shay should buy 7 packages. She will have exactly the correct number of buns.
✓D. Shay should buy 7 packages. She will have 6 buns left over.

201-210

Jill sold bags of raisins. The first day she sold 6 bags, and the second day she sold 12. On the third day she sold 18.

If Jill continues to sell bags following the same pattern, how many bags will she sell on the sixth day?

A. 54
B. 48
✓C. 36
D. 30
E. 24

211-220

Two children will share the dolls equally. How many dolls will each get?

A. 1
B. 2
✓C. 4
D. 8

221-230

[6 * (9 - 4)] + [(6 + 4) + 2]

What is the value of the expression?

A. 20
B. 30
✓C. 35
D. 38
E. 58
Numbers and Operations
Students understand the place value system by counting, representing, comparing, rounding, and performing operations with multidigit whole numbers, fractions, and decimals.

How many?
A. 4
B. 5
✓C. 6
D. 7
E. 8

63 + 34
A. 31
B. 37
C. 71
D. 97
✓E. 98

What is the product?
A. 30
B. 65
C. 300
✓D. 365

99 - 56
A. 34
B. 42
✓C. 43
D. 53
E. 155

60 × 5
A. 30
B. 65
C. 300
✓D. 365

Drag the fractions from the toolbox to their correct location on the number line.

Drag the numbers to the boxes to make two different fractions equal to $\frac{1}{3}$.
Measurement and Data

Students understand and solve measurement problems involving length, mass, liquid volume, time, money, area, perimeter, volume, and angle. They can generate, represent, and interpret data.

What is the perimeter of this rectangle?
A. 12 inches
B. 24 inches
C. 8 inches
D. 16 inches
E. 20 inches

A plane flew for 5 hours. Click on all the measurements that are equal to 5 hours.
15,000 seconds
30,000 seconds
150 minutes
18,000 seconds
300 minutes
250 minutes

What is the area of the figure?
A. 18 square units
B. 9 square units
C. 20 square units
D. 16 square units
E. 5 square units

Who has the most candy?
A. Liz
B. Ari
C. Cam
D. Lee
E. Cleo

The list shows how students in a class spent free time.
4 students made art.
2 students played with blocks.
5 students read books.
3 students completed puzzles.

What is the pencil is about how many centimeters long?
A. 4 cm
B. 5 cm
C. 6 cm
D. 7 cm
E. 8 cm

A. 12 inches
B. 24 inches
C. 8 inches
D. 16 inches
E. 20 inches

4 yards =
A. 16 feet
B. 20 feet
C. 144 inches
D. 80 inches
E. 36 inches

Regina needs 2 1/2 pounds of fertilizer for her plants. How many ounces is 2 1/2 pounds?
A. 16 ounces
B. 20 ounces
C. 30 ounces
D. 40 ounces
E. 48 ounces
Geometry

Students understand and reason with geometric concepts by identifying, describing, creating, and classifying two- and three-dimensional figures. They can solve mathematical problems by graphing points on the coordinate plane.

Which shape does NOT have any corners?

A.  
B.  
C.  
D.  
E.  

Which of these shapes is a triangle?

A.  
B.  
C.  
D.  
E.  

Which shape has symmetry?

A.  
B.  
C.  
D.  
E.  

Which figures show a line of symmetry?

A. 1, 4, and 5  
B. 2, 4, and 5  
C. 4 and 5  
D. 1 and 4  
E. 2, 3, and 4

Which shape is a parallelogram?

A.  
B.  
C.  
D.  
E.  

Which statement about rectangles is true?

A. All rectangles are squares.  
B. All rectangles are trapezoids.  
C. All rectangles are rhombuses.  
D. All rectangles are parallelograms.
MAP tests produce scores that make it possible to monitor student growth from year to year along developmental curriculum scales or continua. The chart inside shows examples of the kinds of work students can do at various points along the MAP RIT scale, assuming they have been exposed to content. This type of information is helpful in supporting appropriate instruction.

Please note that each subject area has a unique alignment to the RIT scale. As a result, scores between subjects are not equivalent.

How to use the charts:

1. Find the column containing the student’s score for a particular subject. For example, if the student’s score in “Geometry” is 188, refer to the column labeled 181-190.

2. Read the column(s) from left to right to locate a sample test question for a given reporting area, such as “Geometry.” A student’s score suggests that, currently, he or she is likely to get about half of the questions of this difficulty correct.

3. Now look at the questions in the column(s) to the left, and higher on the page. The student is likely to get most of these correct, assuming he or she has been instructed in these skills and concepts.

4. The questions further down the page will probably require new learning on the student’s part.

Please note:

Test items in this booklet are sample items, and many are not calibrated or field-tested. For purposes of this document, RIT scale alignment is an approximation.
Operations and Algebraic Thinking
Students can apply and extend previous understandings of arithmetic to algebraic expressions, equations, and inequalities. They can model relationships between quantities using functions and compare, interpret, and build functions in different representations.

201-210

Simplify.
\[5 + (2 + 3^2) - 1\]
A. 12
✓B. 15
C. 17
D. 29
E. 99

If \(6n = 102\), \(n\) equals
A. 12.
✓B. 17.
C. 108.
D. 196.
E. 612.

Evaluate \(gh - b\) if \(g = 4, h = 9, b = 12\).
A. 48
✓B. 37
C. 25
D. 24
E. 1

211-220

221-230

231-240

241-250

above 250

Drag a number into each box to represent 64 using exponents.

\[\underline{2 3 4 16 32 60}\]

Ken works as a salesperson in a local electronics store. He earns $200 each week plus 6% commission on his total sales.

Which equation correctly represents Ken’s weekly earnings, \(E\), based on \(s\), his total sales?
A. \(E = 0.06s + $200\)
✓B. \(E = 0.06s + $200\)
C. \(E = 0.06s + $200\)
D. \(E = 6s + $200\)
E. \(E = 6s + $200\)

Which expression is equivalent to \(\frac{8^a}{8^7}\)?
A. \(8^0\)
✓B. \(8^a\)
C. \(8^1\)
D. \(8^a\)
E. \(8^a\)
The Real and Complex Number Systems
Students can apply and extend previous understandings of operations to the real and complex number systems by solving problems involving ratio, rate, proportion, rational numbers, irrational numbers, complex numbers, and the coordinate plane.

201-210

The sign shows the cost of a bag of apples at Hank’s Fruit Stand.

$20.40 for a bag of 24 apples

What is the unit price?

✓A. $0.85 per apple
B. $0.90 per apple
C. $1.10 per apple
D. $1.18 per apple

211-220

Which number line shows how to find the sum of -8 + (-2)?

A. 
B. ✓
C. 
D. 

221-230

Move the point to the coordinates (-5, 6).

The Real and Complex Number Systems

231-240

Which is closest to √10?

A. 3.0
B. 3.2 ✓
C. 3.5
D. 5.0

241-250

A $30.00 pair of jeans is discounted 20%.

If sales tax is 5%, what will be the final price for the jeans?

A. $22.80
B. $24.00
C. $24.20
D. $25.20 ✓
E. $28.35

above 250

Which is the simplified form of 2 + 3√-12?

A. 8i√3
B. 2 + 6i√3
C. -i√12
D. 2 - 3i√12
E. -4i√12
Geometry

Students can solve problems involving area, circumference, surface area, volume, and angle measure. They understand congruence and similarity in terms of transformations and apply theorems involving properties of circles and right triangles.

**Use the formulas** $C = \pi d$ **with 3.14 as an approximation for pi.**

Find the circumference of this circle to the nearest inch.

- A. 157 in.
- B. 150 in.
- C. 1570 in.
- D. 53.14 in.
- E. 46.86 in.

**Use the graph to answer the question.**

The triangle is reflected across the $y$-axis and then reflected across the $x$-axis. $P'$ is the image of $P$ after both reflections. What are the coordinates of $P'$?

- A. (-9, -9)
- B. (-9, -3)
- C. (-7, -9)
- D. (-7, -3)

**Which of these nets would fold into a closed cube?**

- A.
- B.
- C.
- D.
- E.

**Calculate the surface area of this rectangular solid.**

- A. 79 cm$^2$
- B. 110 cm$^2$
- C. 120 cm$^2$
- D. 128 cm$^2$
- E. 158 cm$^2$

**Click on all the transformations that carry the regular octagon onto itself.**

- Reflection over line $k$
- Reflection over line $\alpha$
- Rotation 60° clockwise about $P$
- Rotation 90° clockwise about $P$
- Reflection over line $r$
- Reflection over line $s$
- Rotation 120° clockwise about $P$
- Rotation 270° clockwise about $P$
Statistics and Probability

Students can summarize, represent, and interpret data, including measures of center and variability, and investigate patterns of association in bivariate data. They can understand and evaluate random processes and compute probabilities of events in a uniform probability model.

201-210

A box contains 13 balls. 3 balls are red, 5 are blue, 4 are orange, and 1 is yellow.

What is the probability of picking a red ball?

A. \( \frac{3}{5} \)
B. \( \frac{3}{10} \)
C. \( \frac{1}{13} \)

\( \checkmark \)D. \( \frac{3}{13} \)

211-220

Diana received scores of 100, 63, 80, 85, and 92 on her math tests.

What is her mean (average) score?

A. 83
B. \( \frac{84}{5} \)
C. 85
D. 86
E. 87

\( \checkmark \)B. \( \frac{84}{5} \)

221-230

The table shows family size and recycling information for several different families.

Drag the points onto the graph to make a scatter plot of the data.

231-240

Look at the box-and-whisker plot.

Which number represents the median of the data?

A. 20
B. 30
C. 32.5

\( \checkmark \)D. 35

241-250

If Sally studies math for 45 minutes a day at home, predict her math grade based on the scatter plot.

A. 50
B. 60
C. 70

\( \checkmark \)D. 80

above 250

At Washington High School, 20% of the teachers coach a sports team, and 12% of the teachers coach a sports team and lead an academic club.

If one teacher chosen at random coaches a sports team, what is the probability that this teacher also leads an academic club?

A. 8%
B. 16%
C. 32%

\( \checkmark \)D. 60%
MAP tests produce scores that make it possible to monitor student growth from year to year along developmental curriculum scales or continua. The chart inside shows examples of the kinds of work students can do at various points along the MAP RIT scale, assuming they have been exposed to content. This type of information is helpful in supporting appropriate instruction.

Please note that each subject area has a unique alignment to the RIT scale. As a result, scores between subjects are not equivalent.

**How to use the charts:**

1. Find the column containing the student’s score for a particular subject. For example, if the student’s score in “Foundational Skills” is 188, refer to the column labeled 181-190.

2. Read the column(s) from left to right to locate a sample test question for a given reporting area, such as “Foundational Skills.” A student's score suggests that, currently, he or she is likely to get about half of the questions of this difficulty correct.

3. Now look at the questions in the column(s) to the left, and higher on the page. The student is likely to get most of these correct, assuming he or she has been instructed in these skills and concepts.

4. The questions further down the page will probably require new learning on the student’s part.

**Please note:**

Test items in this booklet are sample items, and many are not calibrated or field-tested. For purposes of this document, RIT scale alignment is an approximation.
**Literature and Informational**

**Students understand what they read or hear read aloud. They can make inferences, cite textual evidence, and determine central ideas, main topics, or themes. They can identify and use various text features and determine or clarify the meaning of unknown words in context.**

131-140

Listen to the story.

*Which picture shows where the story probably takes place?*

(This is a listening comprehension item. The passage is not presented here.)

Maureen wants to learn more about taking care of dogs.

Click on the book that she should read.

**141-150**

Why does the bus stop in this picture?

- It is raining
- A train is passing
- A bike is passing
- The people want to ride

151-160

Listen to the story.

*What does Jayna do before she eats breakfast?*

(This is a listening comprehension item. The passage is not presented here.)

161-170

Read the table of contents.

Click on the page where information about dogs can be found.

**171-180**

Listen to the story.

*Read the passage.*

Which food did every son like?

Mr. Lee made lunch for his sons each day. Each son liked some foods best. The oldest son liked nuts and fruit. The middle son liked fruit and string cheese. The youngest son liked soup, fruit, and juice.

181-190

Read the passage.

Click on ALL the sentences that are facts.

**above 191**

Read the story.

*What is the main idea of the passage?*

Birds are one of the few animals that can fly, so they go places other animals cannot. Robins build their nests high up in trees. There is a good reason for this. Robin parents stay in their nests with the babies as much as possible. But they must leave to find food. Sometimes baby birds must be left alone. This would be dangerous if the nests were on the ground because other animals could get to the baby birds. But since the nests are in trees, few animals can reach them. Baby robins are safer up in the trees than on the ground.

Listen to the story.

Birds are one of the few animals that can fly. They go places other animals cannot. Robins build their nests high up in trees. There is a good reason for this. Robin parents stay in their nests with the babies as much as possible. But they must leave to find food. Sometimes baby birds must be left alone. This would be dangerous if the nests were on the ground because other animals could get to the baby birds. But since the nests are in trees, few animals can reach them. Baby robins are safer up in the trees than on the ground.
Vocabulary Use and Functions

Students determine the meaning of unknown and multiple-meaning words and phrases by using context clues and analyzing word parts. They understand figurative language and word relationships. Students can use glossaries and beginning dictionaries to clarify word meanings.

Listen to the sentence: “The boy jumped down the stairs.”
Click on the word with an ending that means “in the past.”

The boy jumped down the stairs.

Look at the pictures.
Click on the bird.

Look at the pictures.
Click on the bathtub.

Which word shows that Jamal had more than just a good time at the party?

Jamal had a good time at his friend’s party.

Which means the same as glimpse?

Which pair of words means the same thing?

“Max looked out the window on the bus ride. For just a moment, he got a glimpse of the new toy store. Very soon, the bus had passed it, and the store was out of sight again.”

Which item did Ronnie take back to the art shelf?

Ronnie took something back to the art shelf. He made sure its lid was on tight, so things would not get sticky.

“Define – need
need – require
good – offer”

Fruits

apple  horse  banana  truck

cherry  grape  pineapple

“Define – need
need – require
good – offer”

Look at the pictures.
Click on the bathtub.

Look at the pictures.
Click on the bird.

Listen to the sentence: “The boy jumped down the stairs.”
Click on the word with an ending that means “in the past.”

(Audio plays for the student, but text is not shown on the screen.)

Which word shows that Jamal had more than just a good time at the party?

Jamal had a good time at his friend’s party.

Which means the same as glimpse?

Which pair of words means the same thing?

- a quick look
- a daydream

a gift card
a buzzing sound

quiet  awful
excellent  boring
## Foundational Skills

Students understand the organization and basic features of print. They know and apply grade-level phonics and word analysis skills in decoding words. Students demonstrate understanding of spoken words, syllables, and sounds. They can isolate, manipulate, and blend individual sounds to form words.

### 131-140

- **Listen to the names of the pictures: tag, goat, boat, bus.**
- **Click on the two pictures that rhyme.**
  
  (Audio plays for the student, but text is not shown on the screen.)

- **Listen to the letter: N.**
- **Click on the picture that begins with the letter N.**
  
  Kite, dog, pie, net.
  
  (Audio plays for the student, but text is not shown on the screen.)

### 141-150

- **Listen to the word: car.**
- **Which picture has the same beginning sound as “car”?:**
  
  Bug, cat, light, pan.
  
  (Audio plays for the student, but text is not shown on the screen.)

### 151-160

- **Listen to the word: coin.**
- **Click on the word “coin.”**
  
  (Audio plays for the student, but text is not shown on the screen.)

- **Listen to the word: surprise.**
- **Move the slash to divide the word into its syllables.**

### 161-170

- **Look at the letter: N.**
- **Click on the picture that begins with the letter N.**
  
  Kite, dog, pie, net.
  
  (Audio plays for the student, but text is not shown on the screen.)

- **Listen to the word: surprise.**
- **Move the slash to divide the word into its syllables.**

### 171-180

- **Listen to the word: coin.**
- **Click on the word “coin.”**
  
  (Audio plays for the student, but text is not shown on the screen.)

- **Listen to the word: surprise.**
- **Move the slash to divide the word into its syllables.**

### 181-190

- **Listen to the word: coin.**
- **Click on the word “coin.”**
  
  (Audio plays for the student, but text is not shown on the screen.)

- **Listen to the word: surprise.**
- **Move the slash to divide the word into its syllables.**

---

**Not to view to view poorly to view again to view before**

- **What does “preview” mean?**
Language and Writing

Students understand conventions of standard English capitalization, punctuation, and spelling. They know conventions of standard English grammar and usage. Students develop persuasive, informative, and narrative writing by planning, revising, editing, rewriting, and adding details.

Find the mistake in the sentence. Click on the word that should begin with a capital letter.

The class pet mouse is named Marilyn.

Nick wrote this report about the United States flag for social studies class.

Click on the sentence that should NOT be in Nick’s report for class.

The United States flag has only three colors.

Read the sentence.

“Many” is not spelled correctly. Use the letters to spell the word correctly.

(Roses can have) Many thorns.

Read the sentences.

Put the sentences in the best order to make a paragraph.

When they finally got home, they made an apple pie. Gabe was busy on Sunday afternoon. First, his mom took him to the park. At the grocery store, Gabe chose apples. After the park, they went to the grocery store.

Use all the words to write a sentence about this picture.

a gets He book

Listen to the sentence: The boys are wet. Move the words to the lines to write the sentence.

(Audio plays for the student, but text is not shown on the screen.)

are boys The wet

Look at the picture.

Where is the dog? behind the girl below the girl next to the girl on the girl

Look at the plate.

Put the apple on the plate.

The class pet mouse is named Marilyn.

Find the mistake in the sentence. Click on the word that should begin with a capital letter.

The United States flag has only three colors.

Read the sentence.

“Many” is not spelled correctly. Use the letters to spell the word correctly.

(Roses can have) Many thorns.

Read the sentences.

Put the sentences in the best order to make a paragraph.

When they finally got home, they made an apple pie. Gabe was busy on Sunday afternoon. First, his mom took him to the park. At the grocery store, Gabe chose apples. After the park, they went to the grocery store.
MAP tests produce scores that make it possible to monitor student growth from year to year along developmental curriculum scales or continua. The chart inside shows examples of the kinds of work students can do at various points along the MAP RIT scale, assuming they have been exposed to content. This type of information is helpful in supporting appropriate instruction.

Please note that each subject area has a unique alignment to the RIT scale. As a result, scores between subjects are not equivalent.

**How to use the charts:**

1. Find the column containing the student's score for a particular subject. For example, if the student's score in "Geometry" is 188, refer to the column labeled 181-190.

2. Read the column(s) from left to right to locate a sample test question for a given reporting area, such as "Geometry." A student's score suggests that, currently, he or she is likely to get about half of the questions of this difficulty correct.

3. Now look at the questions in the column(s) to the left, and higher on the page. The student is likely to get most of these correct, assuming he or she has been instructed in these skills and concepts.

4. The questions further down the page will probably require new learning on the student's part.

**Please note:**

Test items in this booklet are sample items, and many are not calibrated or field-tested. For purposes of this document, RIT scale alignment is an approximation.
Operations and Algebraic Thinking

Students can represent and solve problems involving addition, subtraction, multiplication, and division. They understand and can apply properties of operations, and understand the relationship between operations.

---

**Listen to the story problem:**

There are four goats on the hillside. Three goats leave the hillside.

Click on the goats to show how many are on the hillside now.

---

**Listen to the story problem:**

The Lions had 47 points at halftime. At the end of the game they had 89.

How many points did the Lions score after halftime?

---

**Listen to the story problem:**

There is 1 tree in the yard. 2 more get planted in the yard.

Move the trees to the yard to show how many there are altogether.

---

**Listen to the story problem:**

Bella had 78 shells in her collection. She gave 43 shells away to her friends.

How many shells are left in Bella’s collection?

You can move base ten blocks to help you solve the problem.

---

The domino shows one way to make 5.

Move dots to the empty domino to show a different way to make 5.

---

The Lions had 47 points at halftime. At the end of the game they had 89.

How many points did the Lions score after halftime?

---

What is the answer?
Number and Operations

Students can understand place value, the counting sequence, and counting strategies. They can compose and decompose numbers into hundreds, tens, and ones. Students can use place value understanding to compare numbers, perform multi-digit arithmetic, and develop understanding of fractions.

141-150

Look at the two groups.

Move cubes to the circles to make the groups equal.

151-160

Click on the number that is 1 more than 13.

161-170

What number do the blocks show?

171-180

Look at the number.

What is 100 more than 347?

181-190

Look at the numbers.

Put the correct symbol in each of these problems to make them true.

above 191

6 hundreds and 5 ones

Which number is described?
Measurement and Data

Students can solve problems involving measurement and estimation of lengths, time, liquid volumes, and masses of objects. They can use geometric measurement to understand area and perimeter. Students can organize, represent, and interpret data in various graphical representations.

Look at the picture.
Click on the shortest student.

Look at the group of objects. The objects in this group belong together.
Click on the object that belongs with the group.

Look at the clock.
What time is shown on the clock?

Listen to the story: Julia bought a robot toy for 79 cents. She paid for it with one dollar.
Show the change that Julia should receive. Take as many coins as you need from each stack.

What is the perimeter of the rectangle?

Please note:

Test items in this booklet are sample items, and many are not calibrated or field-tested. For purposes of this document, RIT scale alignment is an approximation.

*The MAP for Science assessment is not aligned to the Common Core.*
Physical Sciences

Students demonstrate understanding of the ideas about the interactions of matter, the relationship between force and motion, how energy forms transfer and transform, and the nature and use of waves. Students also demonstrate their understanding of these ideas in the context of the practices of science and engineering.

191-200

A student experiments with magnets.

Which group of magnets has attractive forces between all 3 magnets?

- A. S N S N S N
- B. S N N N S N
- C. N S N N S N
- D. S N N N N N

201-210

Students designed four pulley systems to lift a box.

Which pulley system will lift the box with the LEAST input force?

- A.
- B.
- C.
- D. ✓

211-220

A physics student has an alarm clock that flashes a beam of white light when the alarm sounds. The student wants a green light from the alarm clock to flash directly into her eyes to help her wake up.

1. Position the mirrors so the light will shine directly into the student’s eyes. Drag the 2 mirrors with the appropriate angles into the diagram.
2. Choose the filter that will change the color of the light. Drag the appropriate filter to the box.

221-230

Solid steel balls are located on ramps as shown.

Which ball has the greatest gravitational potential energy?

- A.
- B.
- C.
- D. ✓

231-240

Students made this model of two electrically charged objects.

Which model shows objects with more energy stored in the electric field between them compared to Model 1?

- A.
- B. ✓
- C.
- D.
Life Sciences

Students demonstrate understanding of the ideas about the structure and processes of organisms, how matter and energy move through ecosystems, how heredity affects organisms, and how biological evolution affects the unity and diversity of life. Students also demonstrate their understanding of these ideas in the context of the practices of science and engineering.

Students plan to cross 2 purebred guinea pigs. One has black fur and one has white fur. The color of a guinea pig’s fur depends on a single gene pair. Black fur is dominant to white fur.

If there are 6 guinea pig offspring, what fur color will they most likely have?

A. 3 with black fur and 3 with white fur
B. 4 with black fur and 2 with white fur
C. 5 with black fur and 3 with white fur
D. 6 with black fur and 0 with white fur

Which phrase describes all predators?

A. animals that eat plants and fungi
B. animals that hibernate in the winter
C. animals that hunt other animals for food
D. animals that live in herds with other animals

DNA is the storage molecule for hereditary information because it can be replicated and transcribed.

A student plans to cross 2 purebred guinea pigs. One has black fur and one has white fur. The color of a guinea pig’s fur depends on a single gene pair. Black fur is dominant to white fur.

If there are 6 guinea pig offspring, what fur color will they most likely have?

A. 3 with black fur and 3 with white fur
B. 4 with black fur and 2 with white fur
C. 5 with black fur and 3 with white fur
D. 6 with black fur and 0 with white fur

Which statement did Darwin NOT accept in forming his theories?

A. Variation is a characteristic of all living things.
B. Acquired characteristics can be passed on to offspring.
C. Individuals that are best adapted tend to survive and reproduce.
D. Organisms tend to produce more offspring than the environment can support.
Earth and Space Sciences

Students demonstrate understanding of the ideas about the history of Earth in terms of the Universe, the Solar System, and the fossil record. Earth's systems including the cycling of matter, plate tectonics, weather, and climate, and how Earth is affected by human activity. Students also demonstrate their understanding of these ideas in the context of the practices of science and engineering.

191-200

Show the position of the Sun in the sky at 6 a.m., 12 noon, and 6 p.m. in March by dragging the 3 Suns to the correct boxes.

201-210

How does air in Earth's atmosphere move while being heated?

A. around in circles
B. upward in columns
✓C. downward in funnels
D. horizontally in layers

211-220

This GIS map shows a region where scientists placed a wind generator within the circled area.

How did the geographic information from this map allow scientists to choose an appropriate location for the wind generator?

A. High winds often occur far from rivers.
B. The lack of vegetation allows high winds to develop.
✓C. High winds are associated with mountain pass areas.
D. The nearby flat plains produce fast-moving air masses.

221-230

In May, a student observes the constellation Virgo in one area of the sky. One month later, the student observes the constellation Bootes in the same area of the sky.

Why does the student observe the constellation Virgo in May and then Bootes in June?

A. Stars fade in and out.
B. Earth rotates on its axis.
C. Stars revolve around the Sun.
✓D. Earth revolves around the Sun.

231-240

The diagram represents the water cycle in an area with a lake and plants.

Label the arrows by dragging the names of the processes into the appropriate boxes.

above 240

Which evidence does NOT support the theory of plate tectonics?

A. the mapping of glacial features on different continents
B. the matching of fossil types in South America and Africa
C. the mid-ocean ridges with alternating magnetic stripes on the seafloor
✓D. the mass extinction of species on a continent within a small period of time
Founded by educators 40 years ago, Northwest Evaluation Association™ (NWEA™) is a global not-for-profit educational services organization known for our flagship interim assessment, Measures of Academic Progress® (MAP®). More than 7,400 partners in U.S. school districts, education agencies, and international schools trust us to offer pre-kindergarten through grade 12 assessments that accurately measure student growth and learning needs, professional development that fosters educators’ ability to accelerate student learning, and research that supports assessment validity. To better inform instruction and maximize every learner’s academic growth, educators currently use NWEA assessments and items with nearly 10 million students.

Discover the difference that true partnership makes.
Learn more at NWEA.org or call 503-624-1951.
