

# LIMITED CHOICE AND NONRESIDENT STUDENT TRANSPORTATION

## ◆ PARENT RESPONSIBILITY

To make sure the student is at the school of choice on time in the AM and picked up on time in the PM.

## ◆ POSSIBLE ALTERNATIVE

Students may be able to ride a district bus with the following provisions:

- The route to the school of choice, nearest the parents home must be identified, then;
- There must be space available on that bus;
- The parent must take responsibility for getting the child to/from the bus stop. If a parent allows a child to walk to the nearest stop and if MSDWT, after considering the distance, streets to be crossed, and age of the child, determines it is unsafe, transportation will not be provided for that student; finally
- There is a minimum of a two (2) week wait, after the first day of school, for MSDWT to evaluate routes to determine if room exists on the appropriate route. The Transportation Department will keep a list of those Limited Choice and Nonresident students whose families have requested transportation and those requests will be evaluated on a case-by-case basis.

Bus routes and bus stop locations are **not** altered or added to accommodate Limited Choice or Nonresident students.
