

Collecting Racial and Ethnic Data

08.08.19

Though the department does not report individual student or staff data to the federal government, the total number of students and staff by race and ethnicity of each school is reported. The following sections define how race and ethnicity is collected using a two part question, how observer identification is used for non-self-identifying students, and an overview of reporting racial and ethnic data to the IDOE.

Two part question for students and staff

Districts must collect race and ethnicity information on students and staff using the *two part questionnaire*. The respondent must answer both questions. District enrollment forms will need the below two part question for all new enrollees to Indiana schools. Districts should train staff to assist enrollees in responding to the two part question. **This data is to be collected once and is to be kept as part of the enrollee's permanent file.** (Exception: a parent/guardian/student makes a request to correct the original identification.) This information should be transferred upon the enrollees exit to another district.
