

CHILD NUTRITION SERVICES

CHARGE POLICY

The State Board of Accounts requires the school district not to incur debt from student meal charges. We ask that parents maintain a positive account balance if your child will be making purchases. If a student account has a zero balance, the student will still be provided a school meal and the cost of the meal will be charged to their account resulting in a negative balance. Beyond the school meal, additional **snacks/ala carte items/extras are not available to purchase for anyone with a negative balance on their account.** Friendly reminders and courtesy calls will be made notifying the parent that payment is due and families will be required to pay back any charges owed in a timely manner. **All negative balances not paid are subject to collections.** We encourage all families who qualify to complete the application for federal support to receive free or reduced lunch funding.
