WASHINGTON TOWNSHIP SCHOOLS

Introducing PriceProtector+, *powered by* ➕ GoodRx

Following our mission to ensure **optimum value** at the **lowest possible cost**, TrueScripts is excited to offer a better way for members to access discount card savings on generic prescriptions.

To save money, members can use discount cards instead of their plan benefits when this option offers a lower out-of-pocket cost. For those with a high deductible plan, this is especially important.

At TrueScripts, we want to make it easier for you to get the greatest savings possible while achieving appropriate credit toward your deductible and out-of-pocket maximums. With **PriceProtector+**, we will automatically apply GoodRx discount card pricing if it is lower than your out-of-pocket cost through the benefit plan. No shopping around, no forms to send in, no headaches. That's *Amazing Care!*

Example:

Member Generic Copay
$10

Compared during pharmacy transaction

GoodRx discount card pricing
$5.49

Lowest wins!!

TrueScripts

Member

- Receives claims data
- Applicable amounts applied to member accumulators
- TrueScripts captures fill data which helps us:
  - Catch potential drug interactions
  - Monitor adherence
  - Identify opportunities for future programs

Pays $5.49 at the pharmacy

What do I need to do to access this program?
Absolutely nothing! Everything takes place automatically when your pharmacy processes your generic prescription(s) with your benefit plan ID card. You'll get the lower cost, and the amounts you pay will be credited to your deductible and/or out-of-pocket where appropriate.

Since drug prices may vary from one pharmacy to another, you can compare individual pharmacy costs on the GoodRx app to ensure you are receiving the lowest cost possible. The only pharmacy that does not currently accept the program is Walmart Pharmacy.

TrueScripts™ *Amazing Care*

We are Experts in Prescription Benefits.
