

## FUNDRAISING & CROWDFUNDING

The Metropolitan School District of Washington Township recognizes that staff and student organizations may need to raise funds to support various educational and other instructional-based initiatives. The District also acknowledges the utility and convenience of online fundraising or crowdfunding/crowdsourcing sites such as DonorsChoose and GoFundMe. The School Board authorizes the Superintendent or designee to approve all fundraisers and inform the School Board at its next regular meeting. When considering what methods to employ when fundraising, students and staff must consider:

- Only using crowdfunding sites/services that have been vetted and approved by the Superintendent or designee in writing; and
- Whether the proposed fundraising or crowdfunding site takes a portion of the raised funds or requires fundraising goals be met prior to releasing funds.

Crowdsource fundraising is limited to a maximum of \$50,000 or the equivalent per solicitation.

Fundraising and use of online fundraiser/crowdsourcing sites are subject to all District policies and procedures on fundraising generally, as well as the specific requirements for *online* fundraising below:

1. All fundraising campaigns must support educational or instructional-based initiatives.
2. All crowdfunding campaigns must comply with other board policies and applicable laws, including student privacy and anti-harassment laws. Postings may not include a student's personally identifiable information without parental consent.
3. No District staff may receive any cash payments for fundraising campaigns (except for reimbursement to teachers for verified reasonable project costs).
4. District staff must keep and submit, upon request, records of all funds and items obtained to the Superintendent or his or her designee. A financial report shall be submitted to the Superintendent or designee at the conclusion of the fundraiser.
5. Funds and/or property received through fundraising (online or otherwise) become property of the District, will be inventoried in the same manner as other District materials and equipment, and will remain in the classroom.
6. Any item purchased with the funds received is District property and must fit/be compatible with District technology.

7. If a teacher has obtained educational resources through fundraising and then moves to another school building within the District, the teacher and building principal will work to mutually agree if the materials should follow the teacher to the new building or remain with the original building. The teacher and principal should take into consideration the best interests, curriculum, and grade level of the students at each building.
8. If the teacher moves to another district, the materials remain in the school building.

Employees who launch fundraising campaigns in violation of this policy do so at their own risk and may not act on behalf of, or hold themselves out as acting on behalf of, their school or the District. Such employees are subject to discipline, up to and including termination/cancellation of employment contract.

The Superintendent or his or her designee may develop administrative guidelines to implement the above policy.
